New Delhi, June 17, 2009: The Board of Directors of Nu Tek India Limited [BSE: 533015 |NSE: NUTEK], a leading telecom infrastructure services provider, have approved the financial results for the year ended 31st March 2009. Nu Tek India Limited posted consolidated net profit (adjusted) of Rs. 27.05 crore for the year ended March 31, 2009. The consolidated income from operations for the year ended March 31, 2009, was Rs. 180.3 crores.

Talking about the results, *Mr. Inder Kumar Sharma, Founder and Managing Director, NuTek* said, “The last year was one of tremendous growth for the industry on the

whole, with 11 million wireless subscribers joining the telecom bandwagon every month. Nu Tek being part of the same sector also had its share of success. Our continuing focus on domain expertise and efficient telecom infrastructure services has helped us carve out a niche in the services sector.” He further added, “The outlook for the coming year ahead remains positive with MNP, 3G and Wi-Max becoming the focus of the year.”

About NuTek:

Nu Tek (BSE- 533015| NSE- NUTEK), is a Telecom infrastructure services provider offering Infrastructure rollout solutions for both mobile and fixed telecommunication networks. Their strength lies in the breadth of services they offer in the telecom infrastructure space. They offer services to Telecommunication Equipment Manufacturers, Telecom operators as well as third party infrastructure leasing companies in installing and maintaining Telecom Network Equipment & Infrastructure. In the process of creating a total solution, Nu Tek undertakes initial feasibility studies, prepare strategies, and undertake engineering, electronics, construction, installation, integration and maintenance of network components for their customers. They are also registered with Department of Telecommunication as Infrastructure Provider - Category I.
